

Northwest Health

Northwest Health - Porter announced that it has opened a specialized clinic to help patients who have been told they have a lung nodule, often called a "spot on the lung." The clinic's goal is to help patients get a fast, accurate, and efficient diagnosis and coordinated management of suspicious or cancerous lung nodules. Lung cancer is a leading cause of death in the U.S. and, according to the CDC, the third most common cause of cancer. More people die from lung cancer than any other type of cancer. Patients who visit the Lung Nodule Clinic will benefit from a multi-disciplinary team of physicians who work together to facilitate early diagnosis and timely care for patients. The Lung Nodule Clinic can be reached at 219-983-LUNG (5864). The clinic is located in the Medical Plaza on the Northwest Health Porter campus at 85 East US Highway 6, Valparaiso.

Reins of Life, Inc.

is here to help educators and parents in this new virtual world by offering Zoom field trips, e-lessons and safe on-site programming! 'Educate with Equines' makes learning fun using our furry friends to help introduce new languages, STEM concepts and activities for both children and professionals! >>
